## COMPATIBLE WITH PRO AND LITE SYSTEMS

Fusion Sport's 3<sup>rd</sup> generation control unit brings together the best of wireless and web technologies to give you the ultimate user experience.

- World first cross platform app for Apple and Android devices
- Over 200m line of site range to your SMARTSPEED PRO or LITE timing gates
- Water and impact resistant for everyday use
- Integrated PS2 inputs for direct connection to SMARTSCAN RFID, SMARTJUMP and other accessories such as hand start pads
- Integrated super bright LED display for single or dual feedback functions when using SMARTJUMP
- LCD display for simple diagnostics such as battery level and channel settings

The new SMARTSPEED mobile app has been professionally designed and delivers a combination of simple, intuitive user interface with all of the deep functionality offered by SMARTSPEED.

The new Mobile App also comes with a free subscription to our new SMARTSPEED ONLINE platform, where you can

- Create new teams and player lists
- Create your own drills
- Download results from your testing and training sessions

SMARTSPEED ONLINE synchronises seamlessly with your mobile device across the internet, removing the need for working with Excel and CSV files completely for exchanging information with your mobile device.
